To whom it may concern

Company Pro Bag is family-run company with the experience in manufacturing bags dating back to 1956. Since the beginning of our long business career we have produced an enormous number of types and amounts of bags. Even today, after over half a century, BAGS have still remained our main product, which is a fact we are immensely proud of.

Whit this document, we recommend the services of the Mr. Milan Barackov and Norimport Trading AS, Oslo Norway. We cooperate with Norimport Trading AS services for the past two years, and we are completely satisfied.

Thanks to the Norimport Trading AS and contacts that they have provided, our company is successfully cooperating with clients from Norway, for whom we are producing sports bags.

We are pleased to recommend the services of Norimport Trading AS
